

My2050 in english

You will start the game in Penttilänpuisto. [See the map.](#)

Welcome to play My2050 – an adventure game about the future and climate change!

My2050 is an entertaining combination of escape room and geocaching mixed with facts and possible future scenarios. It is open and free to play for anyone. You can start your adventure anytime; you only need your phone and 60 minutes of your time.

In the game, YouTube superstar and climate influencer Niha Bee will be your guide to the future, showing you how life is in the 2050s.

You have 60 minutes to explore and collect as many points and achievements as possible. The game ends after 60 minutes.

INSTRUCTIONS FOR MY2050 PLAYERS

1. We recommend playing in a team of 2-3 people. The game is designed for youngsters and adults. The recommended age is over 12. Younger children can play with their parents or older friends.
2. Take a close look at these game instructions beforehand so you don't miss any game time.
3. You need one mobile device for each player/team. Download the X-routes app to your phone or tablet for free from the device's own store (download X-routes from Google Play Store / or from Apple AppStore) and create a player/team name.
4. Go to play with a full battery and allow GPS to locate your mobile device.
5. Start the game next to Penttilänpuisto Skate park ([click to see the location on map](#)).

At the starting point, find the right game My2050Nokia from the X-routes application.

6. 60 minutes of playtime starts when you click to enter the game. The game closes after 60 minutes have passed. You can keep track of the time spent on the clock at the bottom left of the screen.

7. You will first see your position on the map (a small purple ball) and the first checkpoint; the rest of the checkpoints will appear as the game progresses. To see the contents of the checkpoint, you must first use the map to navigate yourself to the checkpoint and then click on the checkpoint.

8. You can go to different checkpoints in any order. The faster you move, the more checkpoints you will reach during the game.

9. Some of the checkpoints include YouTube videos. The videos are spoken in Finnish, but they contain English subtitles. Make sure to click 'ON' on the English subtitles.

10. You will receive points and achievements by successfully opening the checkpoints. To open a checkpoint, you need to solve a puzzle, enter the puzzle's answer as an opening code in the box below,

and click "OPEN." The code may contain numbers and/or letters. You can guess the correct code several times and use a hint if necessary. Using the hint reduces your points.

11. There are also a few secret checkpoints in the game. Secret checkpoints are just for the fastest and smartest players! They won't appear on the map, but you will hear a sound when they appear in the game's menu. You can score points from secret checkpoints by going to the right location by following the given hint and by clicking "OPEN" when at the right location.

12. Finding information from the internet during the game is allowed but not necessary.

13. When encountering technical problems or losing GPS locating, closing and reopening the app is advisable. After closing, you can continue from where you were. If the GPS locating of your mobile device is weak or the internet connection is slow, it is advisable to choose another device for the game. The game works seamlessly with almost all modern mobile devices, but unfortunately, we cannot guarantee full functionality on all mobile devices found on the market. If you encounter a problem with the app, you can also choose to play it on a web browser (Safari/Chrome): <https://play.x-routes.com/>.

14. Reduce battery consumption during the game by closing other applications in the background. You should adjust the display brightness, volume, and screen standby mode to suit your needs before the game. You can see the puzzle pictures bigger by clicking them.

15. Be careful when moving around the game area, and always follow the traffic rules.

16. Be quick and clever, and work well together with your pair/team!

17. Not finished yet? You can play My2050 again by registering with a new player profile. This requires deleting and reloading the app or erasing browser history.
